

From the President's desk

MRS. ANAXI SHAH
President

My journey has been one of learning through the two decades at SMILE. Helping to change the lives of women and giving a career to our children has been a constant and systematic effort of our team at SMILE.

The environment where they live comes with many challenges. Besides the monetary help I feel they have a need for constant encouragement and motivation, counseling and moral support. At SMILE we help them believe in themselves and help instill in them self-confidence which is the most important tool needed for success. Once we have managed to help our children with this most important asset, the sky is the limit for them.

I am proud to say that all our children graduate and are many are pursuing their degrees in various fields like engineering, medical, Information Technology, Law, Chartered Accountancy, Homeopathy, Dentistry, Dance and Marketing. I am happy to say that some of them have got very good jobs in corporates like Infosys, in a reputed legal firm, Motilal Oswal Securities limited. Two of my students who were trained by Shiamak Davar are dance choreographers at Victoria Art Foundation. **These have been the most rewarding moments of my life.**

The greatest learning I have had, is working with my women. I would like to share the transformation I have seen take place with them. I realized that these women come with amazing qualities. They are talented, patient, great with multitasking and they come with an innate inner strength and courage. They too have many challenges in their life. Our role at SMILE is to help them realize their potential and help them nurture what they already have. We see them emerging and growing into leaders and women of substance. I am delighted to tell you that some of our women are financially independent and others are making a good income.

The work that we do at SMILE is the biggest reward and brings a lot of contentment to me. All this will not be possible without the help of my team at SMILE and my supporters. Like they say, **'Every drop of water in the ocean counts'**.

About Smile

SMILE, a registered charitable organization was initiated in 1997 with the primary objective of giving a child the gift of education.

We started our organization when we witnessed a handful of street children loitering aimlessly around the Chowpatty beach and enjoying their freedom unconscious of their future. That was the moment we decided the children needed to specific formed methodology and therapeutic media to create an interest in education and start thinking about their future goals. This was followed by getting them to our day care centre where we could personally monitor and reach out to them. We then successfully put these children to a formal form of education; schools. We constantly worked with these kids and helped them cross barriers they encountered on their way. We not only helped them financially and academically but also nurtured their talents and groomed their personalities.

Since then, there has been no looking back

Today we cater to the nurturing of more than 4500 students to help them make a resourceful person out of themselves. We call this project of ours "UDAAN" which means flight, so that the children can have a higher flight with the resource of education.

SMILE came up with the first Montessori school for children aged two to six years for the underprivileged in South Mumbai.

A child's home environment has a profound effect on his well-being. We started getting the parents of children involved in the development of their child. There were regular meetings, counselling sessions to help parents understand the importance of education and provide an inducive environment for

the same. This gave rise to our project "UTKARSH", that today works with the mothers of our children. Through this project we work towards getting the women out of the four walls of her home. We worked towards their upliftment through various educational and personality grooming workshops. We helped them become skilled professionally through whatever talents they possessed. This is how we began our Income Generation project. Our women now grew more confident and independent to make a sustainable income for themselves and their families.

After seeing remarkable changes in the development of our children, SMILE then began extending its work to children from schedule tribes and schedule castes. We have adopted a few schools in the rural areas of Gujarat and Maharashtra where we have bought about an educational movement to improve the lives of children going to those schools. This is what we call our "Rural Project"

We work with people from all ages and all spheres of life. "UMANG" is our project that is totally dedicated to eradicate problems related to old age. We address issues of emotional disturbance and a feeling of isolation through entertainment programs, outings, organizing various programs to a create a strong group of friends who they could always look upto in times of loneliness.

Our Mission

SMILE is a registered non-governmental organization that is reaching out to children from the lower sections of society and gives them an education, exposure, resources and a career enabling them to be financially independent and thereby uplifting an entire family.

Our Objective

To work in close co-ordination with our target groups to enhance their overall development, bring out their talents, shape up their confidence and make them independent and self-reliant by providing educational, rehabilitation, vocational and many other training programs.

Our Projects

1997 | Udaan

We at Udaan focus on education and holistic development to enable a child to become confident and financially independent.

2003 | Montessori

Montessori is dedicated to nurture the kids aged 2 to 6 years as these are the most significant years of growth in a child.

1999 | Utkarsh

At Utkarsh we help our women realize their potential, identify and become financially independent through our income generation program.

2008 | Rural

This project reaches out to the children in the rural areas to provide them an education, better opportunity and an overall development.

Udaan

UDAAN, as an initiative that started in 1997 to work towards the street and slum children has now seen touching success. The aimless children roaming on streets and traffic signals now have a career for themselves. We have seen our children, who joined us when they were in primary schools to complete graduation, some even post-graduation and most of them successful and financially independent. Through the years, we have seen transformation in the lives of so many children who now are healthier, stronger and better citizens of the society.

We continue to support our children for nutrition, health care, education, recreation facilities to through the various exposures, opportunities and programs specifically designed for their needs. Today this project is proud to have perked up the lives of 4500 children.

All our UDAAN activities are carried out at the day care centre at Babulnath and Walkeshwar administrative office which is open to all sponsored children from 10.00 am to 6.00 pm.

ADDITIONAL EDUCATIONAL SUPPORT

For students struggling with a particular subject it is often difficult for teachers in classrooms to give them the attention and support they need. Moreover, our children come from backgrounds, where even their parents have basic education and are unable to help their children with their homework. This, we have observed is often the reason for a child to drop out from the school. Hence tuitions are the best option for these children as it will give them the much needed understanding they need and help them solve their queries.

Regular tuition classes are conducted at our SMILE administrative office and the UDAAN day care centre for students appearing from standard one to standard twelve. Under the coaching of qualified teachers learning process is made an enjoyable activity and thus increases chances of understanding the content. Children and their parents have also seen remarkable change in the grades and are better able to understand concepts which earlier were troublesome.

They now have gained greater self-esteem and have a feeling of doing something big in life.

For those who are appearing for their board exams we have made sure to enroll them for private tuition classes for extra help and secure higher percentage for a better career.

This year SMILE helped 50 children through its initiative of conducting tuition classes.

NUTRITION PROJECT

Children need healthy foods because their bodies require the nutrients to grow. A child who is given healthy food will receive a lifetime bonus of a stronger mind and body. The children coming to UDAAN centre come from families where both the parents are working. These working parents stay out of home for the entire day. Children of such parents generally have problem with their food intake. Having no proper food cooked at home, kids often go to school and class empty stomached. To ensure these children intake proper dose of daily nutrition, SMILE initiated the Food and Nutrition Project. Under this project food packets are given to children from Monday to Friday. These food packets are full of vegetable, pulses, fruits and Roti that provide complete nourishment to these children. These food packets are prepared by the women who are engaged with us under our project UTKARSH.

UDAAN PROGRAMMES DURING 2017-18

Throughout the year SMILE organized various educational, cultural and entertainment programs for the children and also encouraged them to participate in sports, competition, educational and outing program sponsored by various corporate and organization. These give them exposure and opportunity to develop their personality and build their confidence.

Educational Workshops

Brain Power and Concentration by EduBay Team Representatives from EduBay team had come to SMILE for three consecutive Saturdays to deliver educational workshop for our children. Each Saturday the topic and method differed from the other.

WEEK

1

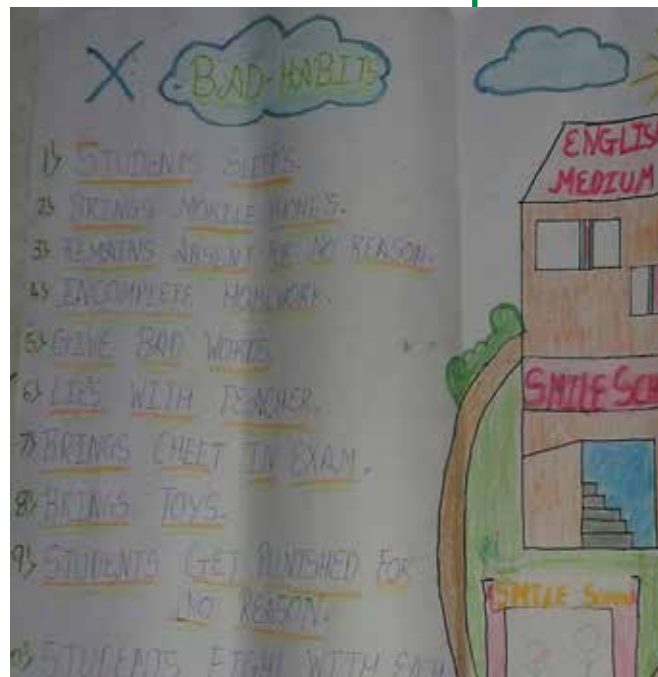

For the first session the children had this year, it started with a brief recap of the topics that were covered last year (Dreams, brain power, concentration etc.). This time the topic that was chosen was "Habits". The entire concept of good habits and bad habits was beautifully done through interactive play sessions with the children. The children were divided into four group based on different communities (Family, Hospital, School and Police Station). The children came out with intelligent habits that need to be practiced and the bad ones that need to be changed keeping in mind the above mentioned institutions.

WEEK

2

The topic for this week was Communication. The topic itself was introduced with a game. The kids were made to play Chinese whispers. Due to pronunciation mistake of one child or the mistake in listening of another, the message wasn't encrypted well by the last child. Hence students were told that effective communication is a two-way process of saying and listening. The children were later divided into group; each with a topic (Modi Government, Demonetization, Ambernath train crash and Virat Kohli). The groups were asked to be reporters to the above incidents or personalities. Each group presented their views and turn by turn went on stage. Later, all the reporters were asked to bombard question together. That is when the chaos began and the true meaning of communication was bought out to the children. Children had a lovely time performing and attending the

WEEK

3

The last week was a continuation of Communication, where the emphasis was on how to deliver speeches effectively. The children were divided into two groups and a debate was organized. The topic was "School - Is it bad or Good?" Both the teams came with their justifications of school is bad as one needs to wake up early, teacher shouts, lot of homework and lot of tension; school is good as we get knowledge, improve had writing, learn lot of things etc.

The workshop ended with children learning that we need to have an account where we have a big balance of good habits.

WEEK

4

This was the last of the four-week program. We decided that the parents would take a walk through of all the things their children had been doing over the weeks. The parents were briefed on the same. Later the kids were made to sit in pairs and their task involved knowing their partner well. They had to question each other and know them well. After this the kids played games where they had to know the mood of the person while he/she was singing. The kids also drew pictures to convey emotions, messages. They also resorted to dumb charades as a medium to convey messages.

Science Project Workshop

Mr. Anuj Tiwari is currently pursuing his post-graduation in Chemistry along with being a professor at a private class. He was invited to the SMILE's Science project workshop to guide our children. Children were divided into different groups according to their age and they were asked to perform experiments or make models based on Science.

Children made excellent models on topics like Solar System, transportation, air pressure, volcanic eruption, wind energy, etc.

Prizes were divided into two groups Primary and Secondary and one special prize were given for presentation and confidence.

Spelling Game

This workshop is to write correct English spelling is important to learn. We played the game with the children in four groups. Each group has to make spelling by using given alphabets. The group also makes maximum correct spellings, win the prize.

T-Shirt Painting Workshop

One of our donors Ms. Diya Golechha along with one of her friends came to SMILE with a bag full of T-shirts and colors. All the children were provided with a T-shirt each and colors. They were asked to paint with the message of environment. Most children painted something related to nature.

A few drew trees indicating their love for tree, a few flowers and some drew a nature's scene with trees, clouds, sun, water, etc. All of them express how important are trees and flowers for our environment.

Rakshabandhan

This festival of protection by brothers for their sisters continues to be celebrated at SMILE year on year. We discussed with the children the importance of celebrating this festival, how and who began this ritual. After the discussion, all the boys sat one after the other and each girl tied a Rakhi to a boy each. The girls tied rakhis and gave chocolates to the boys. The boys gave return gifts to the girls.

Pateti

August has always been the month of festival celebrations in India as well as SMILE. This year we decided instead of taking up only Hindu festivals, we would do something different. For the first time, Parsi New Year – Pateti was celebrated at SMILE. The celebration was a super hit among the children and the members of SMILE. The celebrations began with a skit depicting who Parsis are, how they migrated from Persia and settled in Gujarat. The entire skit was a narration skit with participants performing and a narrator narrating the story. This was followed by a light hearted joke break. The jokes of course were also on Parsis only. The kids then brought out the famous personalities of the Parsi community like the Tata, Wadia, and Godrej etc. One of our executive members further provided detailed information on other eminent Parsis apart from industrialist like Homi Bhabha, field Marshal General Maneksha etc. A lot was discussed about their lifestyles, amenities, their population, their art and culture. A final narration was brought out by one of the students that, Pateti is the repentance day and the actual New Year is the next day. This celebration was not only a fun one, but more informative.

Ganesh Chaturthi Fancy Dress Competition

Instead of having only skits and visits to Ganapati pandals, this year we decided to have a Fancy Dress competition related to Lord Ganesh. Children were to dress up as Ganesha, Shiva, Gauri, Riddhi or the mouse. All the 31 participants were beautifully dressed as either of the characters. All the kids performed really well; right from their costumes to their dialogue delivery. After all the participants were done, all the participants were asked to come onto the stage together. Our president along with other guests and the parents of the children performed the Aarti of these little Lords. At the end of the program, winners were given their prizes.

Diwali Party

This year we had two Diwali parties unlike every year where we have one party for both the mothers and the children. So, for the children's party, we played a few games along with Antakshari. The kids enjoyed a lot. We gave them a few puzzle games and a box of cookies as a Diwali token.

Christmas

This year we had H.R. College students who came down to our centre to celebrate Christmas with our children. The program started with knowing the importance of the festival, knowing what ritual happen in the church and why does this day hold so much importance to a Christian. The stage was then taken by the college students where they had a fun filled games session planned for the kids. They began with playing 'Zip Zap Zoop', amoeba game, fire on the mountain, four corners, Bombay to Goa (statue game) and Sunday-Monday'.

This was followed by a Fancy Dress cum Fashion Show for the kids, where the children had to design their own clothes using newspapers and present a walk on the ramp. The excitement the kids has after the day was called was way beyond the words of expression.

After the games were done, everyone sang 'Jingle bell' song and were given gifts like Christmas cap, t-shirts, chocolates, packets of wafers and fruity by H. R. College students.

Vasant Panchami

Every year, in the month of January, we have been celebrating Makar Sankranti and Haldi Kumkum. This year we decided we would celebrate Vasant Panchami, which marks the onset of spring. The program started with providing the children information on why this festival is celebrated and the importance of Goddess Saraswati in our lives. We also had a small role play, where we had a narrator narrate the story and the characters merely performed on the stage. They did not have dialogue delivery. Post this, we had six girls recite a poem on Vasant in Hindi in pairs of two and other four girls were moving around with colorful dupattas to show Vasant; which is breeze and colorful atmosphere.

Since, Vasant is a month of Love, one of our executive workers told the children of Shivji and Parvatiji. The ladies also performed a dance to celebrate this bond of love.

Holi

This year our Holi program was kept to its basics, we divided the children into two groups, the girls and the boys. We were mere spectators to the groups playing the festival of colors among themselves. They giggled and ran here and there and enjoyed a lot. We arranged for music so that it would be an add on to the celebrations.

ENTERTAINMENT

Stress Buster Party

As a yearly ritual to free our students of the exam stress, we organize a Stress buster party for our children; totally organized by their parents. This year we had two anchors; one from the parents' side and one among the children. We had group dance performance by our women and children. They also enacted a few skits and role-plays. There were singing performances by the tuition sir as well. An environment of smiles and giggles was created. Before parting for holidays, certain instructions were given regarding to reopening of tuition classes, registration for next year, activity classes etc.

Back to School Program

Another of our very special program is the Back to School program, where we distribute stationary, books, bag and other things required to start the new academic year with a lot of zeal. This year we began the program with having some of our college students to share their journey of SMILE through the years. Few of the students voluntarily came up and shared how SMILE has been the support system they needed to get to where they currently are.

This was then followed by a small talk on the programs for the coming year and the agendas like attendance, discipline etc. Once through we had a small ice-breaking game so that everybody leaves back with not just goodies, but with a smile on their face.

Kal Ke Kalakar

This program was organized to bring out the inner actor, director, script writer among the children and the ladies. We chose to keep this as a combined program for the kids and their mothers. All participants were divided into groups of 2-3 members each. The entire process of delivering a role play was to be taken care by them. They had to choose their own storyline, the dialogues, and props if they required etc. All the participants had something different to deliver. There were role plays based on gender bias, Swachh Bharat, Beti Bachao; Beti Padhoa, disabilities etc. Each of the skits had some or the other lesson to be learnt.

Games

The academic year for the children started with a warm day full of games. This session was planned as a games day so that the children can kick start their new year with full of energy and enthusiasm. The kids were first made to play "Fruit Salad", where each kid was allotted a fruit name. The moment a fruit was announced he has to replace his current place with someone else until only one winner was left. Finally, when there were only four kids left, we made them play Musical chair to get a clear winner. Next in line was making formations by themselves. Kids were given numbers and alphabets and they had to arrange themselves in a given time span in the number or alphabet they were given. Kids thoroughly enjoyed the day.

Learning is Fun

The main objective of this workshop was to make children feel that learning could also be made a fun process using different techniques. With this motive, we made the kids play two games.

First game was a 'spelling making game'. There were two groups 'A' and 'B'.

Children were given a word and they had to pick up an alphabet flash card and make the spelling of the respective word. The members of the group had to hold the flash cards in order of the spelling. It was a very useful game for all children.

Second game was 'Dumb Charades'. It was a very exciting game and all children were waiting to play this game. Slips of English, Hindi and Marathi movie names and children had to pick up one slip at a time and act according to the movie name and the group members had to recognize movie name.

At the end, we achieved our motto of sending kids with a fun learning lesson.

Christmas Workshop

Before breaking for Christmas vacations, the kids were made to do some fun art and craft activities. All children had brought so or the other material with them according to the things they wanted to make. Children were not only creative but equally enthusiastic to show their piece of work. We had a few guests who helped the kids making their creations. All the things made were related to Christmas like the Santa face, cap, Christmas tree etc.

What the kids enjoyed most was an in-house Santa who distributed gifts to all the kids.

Some more Games...

Children love games over anything related to academics. So we decided that before we break for vacations, we would ensure we had one more round of a games session.

This time too, we had two different games, with pure intentions of fun. The first one that we played was like a rapid fire kind of a game, where questions were asked and the children had to pen down their answer.

The questions asked were funny and not to do with anything related to studies. All of the children had hilarious answers when we discussed the answers at the end of the game. We gave this game a name of our own and called it "16 ka 16 Tambola".

The next game was to do with advertising. Children were divided in groups and were given a product which they had to market and advertise. The products that the groups had to work upon were homemade wafers, water bottle and a school bag. All the kids marketed their product brilliantly.

OUTSIDE EXPOSURES

Victory Art foundation Stage Show

Shiamak Davar's Dance Academy; the Victory Art foundation has been associated with us since almost a decade now. A few of our students are instructors at his dance academy now. This year, 17 children and 15 women from SMILE participated in the Stage show organized by Shiamak Davar at St. Andrews College, Bandra. Children danced on Bollywood melody from 90's upto today. While women dance on mix songs under the title "Laila Main Laila, Breakup song and Badri Ki Dulhaniya". Each dance performance had a theme to it; festival, our Nation, Mother Teresa and Mahatma Gandhi's contribution to the Nation, Shivaji Maharaja's role to the Nation etc. Accordingly, each group also had their dress code.

The entire program was very systematic and very well organized and executed. Children gained a lot of confidence, got rid of their stage fear and moreover were very happy to see Shiamak Davar at the show. Children also enjoyed a special act which done by a disabled dancer on his wheelchair.

Sponsorship

Sponsoring a child means sharing joy. It's the joy of helping a child break free from poverty to create a life of health, safety, and a bright future!

At SMILE, the sponsorship project involves working with not just the child but also his family, his school principal and teachers. This is important as the family and school environment are the primary factors influencing the child. The main eligibility criteria for the child to be sponsored is the desire to study and financial need.

SMILE selects only those children for its sponsorship program who come from a very needy background. Before selecting a child, we scrutinize the environment by conducting rigorous group meetings within the community, at school and personally interviewing the child and the family.

The child is also selected after seeing the school reports and comments from teachers.

Once the child has been selected for the Sponsorship, the amount that has been sponsored goes into

the school fees, educational material like books, bags, stationary for the child. Some of the funds are utilized for extra curricular activities like dance, karate, etc.

Some of the amount goes into providing rationing help and other medical aid to the family of the child.

SMILE has educated 4500 children under its care. 4000 Children have been educated through the sponsorship program in Maharashtra and Gujarat. 500 have been directly educated under SMILE's UDAAN project.

Rural Project

It has been over a decade that SMILE has ventured into transforming the lives of children in the rural section of the society. The project started when we realised that the youth of these areas have a lot of potential but lack the basics of educational facilities, opportunities and exposure. The school that the children go to are not well equipped in terms of laboratories, libraries. Starting with a school in Panval, we saw our project grow multi-fold when we started adopting schools since the last five years. Every year, we conduct surveys to adopt newer schools.

AN UPDATE OF OUR EXISTING RURAL PROJECT

SMILE officials revisited the adopted schools in Gujarat and Maharashtra to assess their progress. Saraswati Vidhyalaya, Vahanvati Vidhyalaya and Takshashila Vidhyalaya in Gandhinagar were adopted three years ago.

The SMILE team checked all the documentation and reports of the children at the three schools and found that there was a lot of progress with the students and a distinct change and growth in their personalities.

During the year our social worker Mrs. Jayshree, took the children for a picnic and held a parents and teachers workshop. She also distributed stationery on behalf of SMILE.

During the visit the SMILE team met all children and parents and also had a counseling session. The parents interacted well and showed their interest in the education and careers of their children.

Finally, they had a meeting with all the trustees, principals and staff of all three schools. SMILE extended support in upgrading the School, library and Science lab and sponsoring the education of the children.

Our schools in Panwal and Thane, Maharashtra are consistently progressing. The students at both schools are progressing well and are doing well academically and in all other activities.

Rural visit paid to Mansa, Gandhinagar

This is SMILE's new project at Mansa with Kelavani Mandal Public School and Sheth N.H. Girls High school.

This trip to Gujarat was with the purpose of surveying the two Schools and to help them. Mr. Kiritbhai the trustee of the two schools accompanied us. The School's principals Ms. Geeta and Ms. Hema are highly educated with PHD degrees and are dedicated to the school.

The school runs an electrician and wireman course through IT and the students get a 100% placement.

The school needed a computer lab. SMILE sponsored the entire computer lab with 15 computers. We also sponsored an RO water plant for the school.

Nearly 2500 will benefit at these schools.

New Rural Schools Survey Visit Visit to Panchgani

A rural school visit was organized at Panchgani with the help of one of our alliances, Mrs. Jayshree Doshi. There We met Mr. Swapan and his wife Anuradha who also run a teachers' training course at his private institution.

We visited 'Blooming Bud School' in Godavli Village and met the Principal Ms. Nausreen who was running the school from Nursery to 4th Std. and had a total 95 children.

The second school was 'Angel School'. There were 15 children in nursery, Junior KG and senior KG.

The 3rd school at B hilar Village was 'Angel Wings Preschool'. They met the Principal Mrs. Nishita. There were 25 children in Nursery, 30 children in junior KG and 17 children in senior KG. Total of 65 children.

Mr. Swapan was also running a three month English speaking course for young students. Mrs. Anaxi Shah was requested by Mr. Swapan to give a career counseling talk to the youth group. SMILE also offered an opportunity to these students to come to Mumbai to learn and develop any skills or for any help with a job opportunity.

This rural visit was with the intention of extending resources and guidance to these rural schools.

AnandShala, Khopoli

SMILE representatives visited various villages with the objective of adopting a rural School that required funding or additional support.

At Khalapur, Khopoli we visited AnandShala that has a strength of 1400 children right from Jr. Kg. to 12th standard. The School's Chairperson Ms. Asavari made a power point presentation of the school. Ms. Asavari believed in the overall personality development of a child. The school had had facilities like a library, a computer room that had 28 computers and internet connectivity. Each class had 30 children and each standard had 2 to 3 divisions.

The staff and Principal were very enthusiastic and the students seemed to be very motivated.

The secondary school fees are Rs. 30,000/- per year. However, more than 400 children were unable to pay the fees. Help was also required to update the library.

Dhamangaon, Bhiwandi

The visit was made to 'Chhatrapati Shivaji Maharaj Madhyamik Vidhyalaya

Jr. College at Dhamangaon, Bhiwandi. A survey was conducted by SMILE.

Montessori

Each child should be respected as different from adults and as individuals who differ from each other. The child, from the very beginning of his life, is blessed with great constructive energies that determine the formation of his body and mind.

This is the very principle of Montessori where a child is respected for his individual freedom. SMILE started its own Montessori in 2003, which is the only Montessori school for underprivileged in South Mumbai. The origin behind this stands to a fact that children have the highest learning power between the ages 0-6, which are their formative years. Coming from an underprivileged and a lower background kids had been enrolled to formal school only at the age of 5 missing out on the major milestones of their lives.

The entire teaching process of the school is based on the Montessori principle.

CORNERSTONES of MONTESSORIE'S ACTIVITIES:

Education

Exposures and Celebration

Work with Parents

Practical Life

Practical Life activities are the activities of everyday life and they are involved in all aspects of life. The child observes these activities in the environment and gains knowledge through the real experience of how to achieve life skills in a decisive way. We make the kids do pouring, folding, opening bottles, walking on a line etc. to increase mastery and co-ordination of movements. Dusting, sweeping, washing and cleaning as exercises for caring of the environment. The children are taught tying laces, polishing, fastening dressing devices etc. for the care of the self and greeting people, saying please, excuse me, and thank you, blowing the nose,

Sensorial

Children interact with the physical world through their senses. The Sensorial curriculum is designed to help the child to focus his/her attention more carefully on the physical world, exploring with each of his/her senses the subtle variations in the properties of objects. We have enhanced these skills through activities where the children relate things like pink pyramid, geometry cabinets, sorting different shapes, colored tablets, recognizing smooth and rough textures by touching boxes, cylindrical blocks, etc. All these activities aim at the sensory aspect of learning.

Mathematics

Here, the focus is on developing the ability of the child to calculate and judge. Again, the material is scientifically made and the children gradually understand values and quantities in a logical pattern. Number rods exercises, number rods with number cards, tracing number, rote counting from 1-100, number cards and counters, spindle box 10 boards, addition spindle box etc. are some of the ways to help students learn Math.

Language

The young child enters school during a period of great sensitivity to language. Language development, its usage and vocabulary are therefore woven throughout the classroom. We emphasize that the children learn their alphabets using Phonics, where the actual pronunciation of the alphabet and words is taught. This is totally different from the traditional way of learning "A" for Apple, "B" for Ball. Apart from Storytelling, picture talks, news discussion and conversations, we have imparted education about animals, vegetables, fruits, flowers, birds, festivals, parts of body, home, colour, shapes, sizes and seasons and many more such concepts. English to these little kids is taught through sonic methods and pronunciations through sounds.

Exposures and Celebrations Rakshabandhan

We celebrate the bond of purity between a brother and a sister. The kids were first enlightened about the importance of the festival, "Rakhi". After having explained the values of this festival, we had our little girls do Aarti and tie Rakhis to the fellow boy classmates. In turn the boys gave sweets/chocolates to their new sister.

Independence Day

Unlike every year, where we have our children dressed as National Heroes, this year, we had our children dressed in colors of the National Flag. We began the day with children coloring the National Flag, followed by giving them information on our freedom fighters, why do we celebrate this day etc. We showed them picture of various leaders like Mahatma Gandhi, Jawaharlal Nehru, Lal Bahadur Shastri, Sardar Vallabhai Patel, Subhash Chandra Bose etc. We later on made tricolor sandwiches using white bread, orange jam and green chutney. We spoke to them about the Ashoka Chakra. We ended the day with singing patriotic songs.

Janmashtami

The children were dressed in traditional clothes of Radha and Krishna. They were told about the birth of Lord Krishna and how he was born in a jail at Mathura and how he was sent to Gokul. The entire proceedings of him given a bath at midnight with a mixture of ingredients kept the children glued to the entire information. To add to the fun, children were also made to give bath to the idol of Lord Krishna with the same mixture of ingredient. They very much enjoyed this part of the entire day. This was then followed by the traditional Matki breaking in the school's compound. Children had already decorated a Matki earlier and on the day they formed a pyramid to break it. Chocolates were kept in the Matki as a reward for the children.

Diwali Party

For the Diwali party, the class was decorated with kandeel, lights and toran. Children came to School in party clothes and were given information regarding the festival. Each child was made to paint the Diyas brought by them. They also played games like musical chairs and four corners. The children were given story books and colouring books as Diwali gifts by SMILE.

Children's Day Celebration in Globe Tot'ers - A Birla Preschool

For the Children's Day celebration, our Montessori kids and some of our Udaan kids were invited to Globe Tot'ers. Our children were welcomed by theirs with a Cartoon character each. Once the children had settled down, they were demonstrated a puppet show, which each one of them thoroughly enjoyed. Post the puppet show, children were given art and craft activities to do. Children were then given goody bags and lunch boxes as gift of Children's Day. The children had a very pleasant experience of celebrating their day with the kids of other schools as well.

Christmas Celebration

We asked children to wear red, green or white colour clothes. The class decorated with steamers. After prayers we showed them pictures of Church, Jesus Christ, Santa Claus, Christmas tree, Sledge, Reindeer and Snowman.

Children decorated the Christmas tree with steamers, bells, stars, etc. They played games like bowling game and beading game. In beading game, we made three groups 'Red group', 'Green group' and 'White group'. Children beaded the beads according to their respective colour groups.

SMILE had given one chocolate and one small educational book to each child as a gift of Christmas.

Children had made party caps from paper plates for Christmas.

Makar Sankranti

We celebrated Makar Sankranti festival on Friday, 12th January, 2018 in class. Class's blackboard was colorfully decorated. Children were shown kites and reels by the teachers who further gave information regarding the festival. We spoke to children about the importance and the value this festival holds in the Indian culture through stories. Children were very happy to take back home with them the kites that were given by SMILE.

Republic Day Celebration

We celebrated 'Republic Day' on Thursday 25th January, 2018 in class. Some children wore traditional clothes while others dressed up as our National Leaders and freedom fighters. Information about Republic Day was given through pictures and videos of Republic Day 'Parade' in New Delhi.

As a class activity, children were asked to make an Indian Flag by tearing papers (orange, white and green) and sticking it. They also played games in which they had to pick colors to match our Indian Flag.

Holi Celebration

Every year it has been our tradition to play Holi with colors. This year too we celebrated the festival; but with eco-friendly colors. We celebrated Holi in the compound next to SMILE office. Children came dressed in white and light colored clothes and had bought a packet of ecofriendly colors. Before the actual colouring, children were made to play a game. In this game we had mixed up marble papers of different colors in a bowl and children had to pick up the colored papers and arrange it accordingly in a minute time. Children then made 'Pichkaris' by sticking crepe paper balls of different colors and took it with them. Children danced on Holi songs and enjoyed themselves.

Graduation Day

It has always been a moment of pride and honor when we see our little toddlers graduate to a higher school. We organize a 'Graduation Day' every year to get the children ready for the new phase of their school life. This year we had a theme for our graduation day; the Jungle Theme. The backdrop was decorated with handmade trees, birds, SMILE banner and the floor was set up with leaves. Children too had dressed themselves representing different animals. The program started with a welcome to the President and Vice President of SMILE followed by two performances by the children on "Baa Baa Black Sheep" and 'Mamaji ke baug mein'. The children looked amazingly cute while performing. This was followed by a few parents sharing their experiences of seeing their children grow. Our president; Mrs. Anaxi Shah then addressed the parents about how the school works and how it is different from other school. Finally, the children were given their graduation caps and their certificates. It was indeed a great pleasure to see these little one smiling with joy.

Work with Parents

Parents and families are crucial participants in a child's education. It is critical to create a bridge between home and school. Parental involvement within the school community is essential for the quality of all children's educational as well as overall development.

For this purpose, we have quarterly meetings with our parents to ensure they are a part of their child's learning process too. The child's progress, the areas of improvement are also discussed with the parents.

Utkarsh

We have observed that women are full of resources

which is their inherent quality and have lots of experience to share. While working with them, we realized, that these women only need to be groomed well, give them a realization of their true potentials and talent, and give them the much needed confidence by educating them.

SMILE has always been working with improving the lives of the underprivileged children through its project UDAAN. While working on this project, we realized that the development of a child is a holistic approach made by the school, SMILE and the home environment. When it comes to home, the mother plays a vital role in Hence it was equally important to empower the women of these families.

Through our initiative UTKARSH, we aim to assist our women through various educational, healthcare and income initiatives and empower by educating them on their rights and the opportunities available to them.

We also feel entertainment is one area, which our women weren't exposed to. These women work hard through the day to earn an income for their family and perform their family duties. The events that are organized at SMILE, gives them an outlet where they can come and learn, share ideas, and grow as individuals. We have seen a remarkable difference in their personalities; they are confident and talented and show tremendous leadership skills. The skills that they develop then help them in using them to gain financial independence.

UTKARSH PROGRAMMES DURING THE YEAR 2018-2019

SMILE organizes various programs with the Utkarsh women with the objective of giving them information on various subjects by expert lecturers. Entertainment through various programs are planned to give them happy moments in their routine lives and cultural and festivals are celebrated to bring a sense of togetherness and love.

Ganesha Chaturthi

This year we celebrated three festivals - Ganesh Chaturthi, Independence day and Janmashtami together. Moreover, these festivals were celebrated as a group along with the women and the children together. This year we decided to have a fancy dress competition, where all our ladies and children dressed up as different characters related to the lives of Lord Ganesha. There was active and enthusiastic participation by all the women.

Dandiya Raas

This is one of the most loved festival celebrations for our SMILE women. All the ladies were dressed in traditional Garba outfit of Ghagra Cholis. They decorated themselves with some amazing oxidized jewelry to complement their outfits. All the ladies enthusiastically gathered to play the Raas Garba and the Dandiya. They had a fun filled day that brought to them a lot of joy and stress-free moments.

International Women's Day

Health and beauty are always interesting to any woman. So, this Women's Day, we had a few resource persons from the health and beauty industry to give our ladies a talk on and tips to maintain health. Mrs Raksha (Ph.D.) a yoga teacher since 15 years from the Mumbai University spoke to them on the benefits of Yoga and inner strength.

Ms. Jaya focused on how to keep away negative energy and how to always think positive and be happy. She also talked on how one should love themselves and be proud of all that they do to keep their families happy and secure.

Ms. Rashmi Rathod, a beautician since 25 years demonstrated on how to make one presentable and also gave make tips with a live demonstration.

Mrs. Jyotsanaben Mehta (MLA South Mumbai) was our honorable chief guest for the program.

The program concluded with a very touching tribute to all the mothers by their children. The children had written letters to their mothers telling them how grateful they were for all their love and support.

The mothers were really moved with this. The main objective of this program was to enlighten our women, make them aware of their strength and to live happily.

Gudi Padwa

Gudi Padwa marks the New Year for the Maharashtrians. We at celebrated this festival in SMILE with our Utkarsh women. All the women came dressed in traditional Maharashtrian Nauvari Sarees. On this auspicious day, a puja is performed. Five of our women performed this prayer by offering flowers, a sugar garland; did an Aarti and prayed for good health and prosperity for everyone. 'Puran Poli' was given as Prasad. Our women did a folk dance and traditional food of Missal Pav was served. The significance of Gudi Padwa was explained by one of our women. Leaving behind negative thoughts and being positive and praying for the prosperity of everyone.

This year our women used their leadership qualities and talents to organize, perform and ancho entire programs for our Udaan children. These were – Kal Ke Kalakar and the Stress Buster Party. The children enjoyed it thoroughly and were proud of their mother's abilities and perfection.

Diwali Party

Our annual Diwali party was celebrated is celebrated every year with our women to have a time of joy and fun. We play various games so that the entire day is like a day off from work and stress. All our women enjoy, leaving behind all their worries and have an amazing time together. Diwali party at SMILE is an afternoon of fun, food and fiesta. Before the women break for a holiday, Dry fruits and sweets were distributed to each family.

INCOME GENERATION AND SKILL DEVELOPMENT:

Besides, having entertainment programs for the women to break open through their shells, we also aim at providing financial independence to these ladies. This we do; through our Income Generation Program. At SMILE we have various projects where our women earn with the skills they have. We have a food project for our UDAAN children where instead of outsourcing the lunch, the women make nutritious and tasty food for our children. They earn a sizeable income and the food quality is always monitored. They also take orders outside of SMILE.

Candle making, paper bag making and diyas are made by the women and sold at various exhibitions and also directly from SMILE. SMILE has brought in resources to teach soap making, perfume making, mehendi, baking and many more.

SMILE takes part in various exhibitions through the year to help showcase the talents of our women.

DMIT

Dermatoglyphic Multiple Intelligence Test

Dermatoglyphics Multiple Intelligence Test is a combined scientific study of Brain Lobes, 9 Multiple Intelligence and Human Psychology. with the help of fingerprints. Science believes that fingerprints are usually developed during the 13th to 19th week of an embryo and hence can be used to map the child's personality. For a child to know what career he can choose going ahead in life is a question that every parent-child is troubled with. Some of them have the facilities to see a career counsellor who would provide the child with a holistic approach of his aptitude, interest and personality. However, the sad part is most don't have the privilege to see a counsellor. These are children who do not have enough resources, are from government schools with minimum facilities and moreover they aren't exposed to advanced fields.

The harsh reality is that these underprivileged children are bright and have huge potentials but cannot stand at par with others because of lack of knowledge, opportunities and exposures.

Keeping the core objective of SMILE in mind, we started the DMIT in our premises itself. We started with a few children to map their potentials and to help them understand their personalities and career choices they could choose.

The process that we follow is that we record the fingerprints of the child, evaluate his report and then have a one-to-one counselling session with the parents and the child. We provide the parent with details on how his personality is and how they can effectively handle their children. We also provide a straight forward career path for the child to choose based on his study patterns, personality, his aptitude and his interests. Ultimately we help child in his study to prepare and work towards his career goal.

This year, we had 85-90 students who took the DMIT Testing process. What was an achievement for us in this field is that every parent-child pair went home with a satisfied report.

“ Every child has enormous potential to do something. Only key is to know the skill sets”

Exhibitions

THANK YOU FOR YOUR CONTINUOUS SUPPORT

Aditya Birla, Adore Charities, AWC, Crescent Moon, DCB Bank, Express Tower, O and M Company, Taj Hotel

Thank you for building confidence and motivation by providing a platform via your exhibitions to showcase the talent of our ladies.

Our Range of Products includes:

Pearl Items - Coin Pouches, Coasters and Toran

Types and Shapes of Rangolis and Diyas

Reflection Mirror

Other Art and Craft Work

Mehandi Candles

We are very thankful to Dr. Priya and Falguni Jhaveri for donating their export surplus decorative household items to SMILE. SMILE exhibited and raised funds for their organization.

Sharing their skills

Shiamak Davar
Seema Mehta and
Mickey Mehta

Achievements

100% result of school children and 80% of our primary and secondary children passed with above 70% marks and five children got ranker certificate.

Our brilliant student Diksha Shirkar stands 1st in the class with 91% in 9th Std.

ACADEMIC

Result of the year 2017-2018 of std. 1st to 4th

1. 1st in SMILE Sonam Yadav with 87%
2. 2nd in SMILE Sejal Yadav with 68%
3. 3rd in SMILE Ruksana Sakur 51%

Result of the year 2014-15 of std 5th to 9th

1. 1st in SMILE Diksha Shirkar with 91%
2. 2nd in SMILE Ajay Pandey with 85%
3. 3rd in SMILE Anagha Pednekar with 82.33%
4. 4th in SMILE Suraj Rewale with 77.33%
5. 5th in SMILE Anisha Pednekar with 75%
6. 6th in SMILE Tejal Choudhary with 69%

100% S.S.C board results.

Our Six students passed with above 50% marks.

1. Rahul Jagtap with 89 %
2. Trupti Parab with 87.40 %
3. Shivam Chorasias with 86.80 %
4. Kunal Narvekar with 78.90%
5. Harshali Narvekar with 71%
6. Sharad Chibde with 61%

100% H.S.C. board results.

Our ten students passed with above 50% marks.

1. Shivam Tripathi with 77%
2. Kirti Pujare with 75%
3. Maithili Parab with 73%
4. Aarti Vanarse with 72%

From college to their careers.

- Sujeet Bhagat is in the final year of Bachelor's of Dentistry.
- Sejal Pujare is in the final year of Bachelor's in Homeopathy.
- Amit Mishra has completed his L.L.B and has become a lawyer and is practicing in a renowned law firm. He aspires to become a Criminal Lawyer.
- Ruchika Vanarase is working in Infosys Pune as a Senior Assistant Accountant .
- Dinesh Tripathy is working in Infosys Mysore as a System Engineer.
- Sneha Bendre is currently employed with Motilal Oswal Securities Limited as a Senior Investment Advisor.
- Prathamesh Dawal is in his final year. He is doing his Masters in Science, Information Technology.
- Priyanka Dawal is currently in the second year of graduation. She is pursuing her Bachelor's in Banking

CULTURAL

Utkarsh women and Udaan children are trained by Victory Arts Foundation class and performed on stage at St. Andrews Auditorium.

KATHAK

Tejal Chaudhary has completed her teacher's training under Seema Mehta and is now training the students of J. B. Petit School in Kathak dance.

UTKARSH

In the income generation program Utkarsh women are making an income of Rs. 70000/- during the festival season.

Letters from students

I, finished my graduation and I am doing an internship for three months in Prudent Pvt. Ltd., Kurla.

I remember when I was in my third grade, I was very shy and quiet. After joining SMILE. I got an opportunity to better myself with the help of Anaxi ma'am, Smita ma'am, Meenakshi ma'am and Nagesh Sir. All of them always motivated me, and now after thirteen years I am confident of myself, always ready to take initiative. Whenever I feel that something is bringing me down, I recall all the guidance that was given to me by SMILE.

Thank you
Mario Jacinto Coelho

When I joined SMILE, I was in 7th Std. SMILE has given me a lot of support. I have done my B.F.M. (Financial Markets) and i am working with Motilal Oswal Securities Ltd. as an Investment Advisor.

I am very much grateful and thankful for all the support, love and care.

SMILE has given my life a whole new direction beyond my imagination.

Sneha Bendre

सही कहते हैं कि 'Behind every successful man there is a woman' मेरे साथ मेरी मां है, जो हमेशा मेरे साथ एक गुरु, एक दोस्त और एक ढाल की तरह खड़ी है। मैं आठ साल की उम्र से देख रहा हूँ की मुझे और मेरी बहन को अच्छी शिक्षा देने के लिये मेर मां बहुत मेहनत करती है। मां ने हमें Mummy और Papa दोनों का प्यार दिया है। और दोनों की जम्मेदारियां भी अकेले ही नभिया रही है।

एक Single Parent होना आसान नहीं है। बहुत सारी चुनौतियों का सामना करना पड़ता है। मां हर चुनौती का सामना करती है। लेकिन हमारे लिए किसी भी चीज की कमी नहीं होने देती है। मां देर रात तक सलाई का कम करती है। बाहर कुछ नहीं खाती है लेकिन हमारे लिए कुछ न कुछ जरुर लाती है। मैं जसि दिन से कमाना शुरू करूँगा उसी दिन से अपनी मां को कोई काम नहीं करने दूँगा। मैं चाहता हूँ की फरि मेरी मां आराम करे।

मां के बारे में जतिना कहूँ उतना कम है। क्युंकी मेरी मां ही मेरी दुनिया है। Love You मां।

Prathamesh Dawal

I was referred to SMILE NGO by school, as I was unable to pay 2nd term, fees and started getting bad marks in few subjects.

And that is how I became a sponsored child in SMILE. Starting with financial help and putting me in to SMILE group tuition class.

It was my belief that sponsorship means academic help but my belief changed as I started experiencing changes in myself. I started realizing my potential and overcame my difficulties and hurdles.

Many times, I cried during counselling sessions with SMILE. I was encouraged and motivated and was told i was intelligent, this boosted my confidence and now i have a career at the share market.

Anonymous (He doesn't want to disclose his name)

She is the most special woman in my heart now and forever. From the day I was born till now she is supporting me. She worked day and night just for me. She sacrificed her own happiness just to make our future better. She is the most beautiful gift I have ever got. She taught me everything. She is my mentor, role model. Being a mother of two (single parent) is not easy. She never thought about her life and just moved on. What we are today is just because of you and whatever I became, whatever I achieve all the credit goes to you.

Thank you for being there and loving us.

Kirti and Krutika

letter from Parents

मुझे SMILE के साथ जुड़े हुए २० साल हो गए हैं. मुझे यहाँ से बहुत मदद मिलती है जिसकी वजह से मेरी बेटियों ने अच्छी शिक्षा पायी है और अपना करियर बनाया है.

मेरी बेटी रश्मी आज कोटक महान्द्रा बैंक में काम कर रही है. दूसरी बेटी श्वेता Physiotherapist बनने वाली है. और सबसे छोटी बेटी स्नेहा ने B.A. किया है.

SMILE की वजह से मेरी तीनों बेटियां अपने पैरों पर खड़ी हो गयी हैं.

SMILE ऐसे ही लोगों की मदद करता रहे, और तरक्की करता रहे यही मेरी अभिलाषा है.

Sheetal Waghmare

मैं SMILE संस्था से लगभग १५ सालों से जुड़ी हूँ, जसि दनि से मैं SMILE से जुडी हूँ उसदनि से मुझमे सकारात्मक बदलाव आना शुरू हो गए हैं. SMILE में मैंने बहुत कुछ सीखा है. मैंने कभी सोचा भी नहीं था की मैं कभी स्टेज पर डांस करूंगी. SMILE ने मुझे Shiamak Davar Victory Art Foundation के द्वारा डांस सखाया, मेरा आत्मवश्वास बढ़ाया और Shiamak Davar के स्टेज पर डांस करने का अवसर दिया. उसके साथ ही Income Generation Project द्वारा Fancy Items, दिया, रंगोली और आदबिनाना सखाया. जसिसे मेरी आर्थिक रूप से भी मदद मिलती है.

मेरे वकिस के साथ-साथ SMILE ने मेरे बेटे सदिधेश त्रिलोस्कर का करियर बनाने में भी महत्वपूर्ण योगदान दिया है. SMILE की मदद से मेरे बेटे की पढाई पूरी हुयी और उसको अपना हुनर दखाने का मौका भी मिला. उसने SMILE में डांस सीखा और आज वो Victory Art Foundation में Instructor है. आज वो लोगो डांस सखाता है और पुरे देश मे स्टेज शो करने के लिए जाता है, हीरो-हेरोइन के साथ डांस करता है.

आज मैं और मेरा बेटा जसि मुकाम पर हैं वो सरिफ और सरिफ SMILE की वजह से हैं. मैं SMILE का शुक्रिया अदा करती हूँ कआपकी वजह से मुझे एक नयी पहचान

letter from our sponsors

My heartfelt thanks to the SMILE family, for your love and the beautiful flowers. You made this a truly memorable day. Love.

Mrs. Sajani Vaswani

It is really heartening to know that SMILE has been tirelessly striving for a noble cause to be helpful to those children who are less priviledged. And your contribution to make them stand on their own feet is praiseworthy. If I am right, you have been like a godmother to them since more than two decades. I am also glad that people like me has been able to help you in a small way.

I sponsored a girl child. SMILE was regularly updating me with her progress report and it gave me a feeling of satisfaction that I could help her to make her career..

Arvind Dalal

I am happy and proud to be a supporter of Smile. I have been supporting SMILE with the nutrition project for the children who are going to school.

Smile helps develops a child's personality and nurtures their talent besides focussing on their academics . It is wonderful to see these children graduate with versatile degrees and have good careers.

They become financially independent and help lift an entire family.
